EDUCATION

Dr. D. Y. Patil College of Engineering, Akurdi, Pune — **Aug 2024 – Jun 2028**
B.Tech. in Computer Engineering — CGPA: **8.67/10**
Class XII: 83% — Class X: 90.4%

TECHNICAL SKILLS

Programming Languages: C++, JavaScript (ES6+), Python
Frontend Development: HTML5, CSS3, Bootstrap, EJS, DOM Manipulation, Responsive Web Design
Backend Development: Node.js, Express.js, RESTful APIs
Databases: MongoDB, Mongoose, SQL
Tools: Git, GitHub, VS Code, ChatGPT, Claude, Cursor, Perplexity
Core Concepts: Data Structures and Algorithms, OOP, DBMS, CRUD Operations, Debugging, Error Handling

PROJECTS

StayHub – Accommodation Listing Web Application
Node.js | Express.js | MongoDB | Mongoose | EJS | Bootstrap

- Developed a server-rendered accommodation listing application with dynamic EJS pages and MongoDB-backed listing and review data.
- Implemented RESTful routes and CRUD operations to create, view, edit, and delete accommodation listings.
- Designed Mongoose schemas with data validation and connected database operations to the application's listing and review workflows.

FoodShare Chain – Blockchain-Based Food Donation Platform
JavaScript | Node.js | Express.js | MongoDB | Solidity | Ethers.js

- Developed a full-stack food donation platform with user registration, login, and dashboard functionality using Express.js and MongoDB.
- Integrated MetaMask wallet connectivity and Ethereum Sepolia smart-contract interactions for creating and claiming donations.
- Connected frontend interfaces, backend routes, and blockchain functions to support the donation workflow.

Personal Portfolio Website
HTML | CSS | JavaScript | Node.js | Express.js | MongoDB

- Built a responsive portfolio website to present technical skills, projects, and professional information.
- Implemented an Express.js contact form with input validation and MongoDB storage through Mongoose.
- Used environment variables to manage backend configuration.

PROBLEM-SOLVING & TECHNICAL INTERESTS

- Use AI coding assistants to support code understanding, debugging, and evaluation of generated solutions.
- Interested in JavaScript engineering, interactive web applications, and building maintainable software.
