Education

Dr. D. Y. Patil College of Engineering Akurdi, Pune August 2024 – June 2028
B.tech in Computer Engineering CGPA: 8.67
XII: 83%
X:90.4%

Technical Skills

- **Programming Languages:** C++, JavaScript (ES6+), Python
- **Web Technologies:** HTML5, CSS3, Bootstrap, DOM Manipulation
- **Backend Technologies:** Node.js, Express.js, EJS, RESTful APIs
- **Databases:** SQL, MongoDB, Mongoose
- **Developer Tools:** Git, GitHub, VS Code
- **Computer Science Fundamentals:** Data Structures and Algorithms, Object-Oriented Programming (OOP), Database Management Systems (DBMS)
- **Software Development:** CRUD Operations, Software Testing, Debugging, Error Handling, Software Development Life Cycle (SDLC)

Projects

StayHub – Accommodation Listing Web Application Github

Technologies: Node.js, Express.js, MongoDB, Mongoose, EJS, JavaScript, Bootstrap

- Developed a server-side web application supporting accommodation listing creation, viewing, updating, and deletion using CRUD operations.
- Implemented RESTful routes and integrated MongoDB using Mongoose for efficient data storage and retrieval.
- Designed database schemas and implemented data validation and error handling to maintain data consistency.
- Developed dynamic web pages using EJS, JavaScript, HTML, and CSS.

FoodShare Chain – Blockchain-Based Food Donation Platform Github

Technologies: JavaScript, Node.js, Express.js, MongoDB, Solidity, Ethers.js

- Developed a full-stack food donation platform with user registration, authentication, and dashboard functionality.
- Implemented backend APIs using Node.js and Express.js and integrated MongoDB for user data management.
- Integrated MetaMask wallet connectivity and Ethereum Sepolia smart contracts using Ethers.js.
- Worked on connecting frontend interfaces, backend services, and blockchain transactions to support donation and claiming workflows.

Personal Portfolio Website Github

Technologies: HTML, CSS, JavaScript, Node.js, Express.js, MongoDB, Mongoose

- Developed a responsive portfolio website to showcase technical skills, projects, and professional information.
- Implemented a backend contact form using Express.js with input validation and error handling.
- Integrated MongoDB with Mongoose to store and manage contact form submissions.
- Used environment variables to manage backend configuration.
